REC PERFORMANCE ASSURANCE BOARD

ACTION LOG

ACTION REF	ACTION	OWNER(S)	TARGET DATE	STATUS
RECPAB_24_1029_02	RECCo to seek legal guidance to clarify and reiterate the provisions within the Code for Parties and Service Providers to cooperate with the Code Manager and PAB in any assurance activities, as well as coordinated action amongst Code Bodies against an underperforming Party.	Jon Dixon, RECCo	17 December 2024, revised to target completion date of 1 April 2026	The PAB Chair explained that RECCo is conducting a comprehensive rewrite of the Performance Assurance drafting as part of the Code reform, aiming for clarity in Parties' responsibilities and information sharing. The review of red line text is ongoing, with discussions underway with Ofgem to determine if changes can be accepted en masse or require discrete proposals. This has been combined with RECPAB_24_1217_05, as per the discussion on 02 June.

ACTION REF	ACTION	OWNER(S)	TARGET DATE	STATUS
RECPAB_25_0429_01	Implications of the Data (Use and Access) Bill on the REC arrangements including Energy Data governed under the REC: • The PAB Chair will prepare a briefing for PAB once the Bill has been passed through Parliament and Ofgem's direction is clear. • An action was given by the Department for Energy Security & Net Zero (DESNZ) from the Smart and Secure Electricity System (SSES) programme as RECCo have been asked to be governance vehicle for tariff interoperability (which was included in the RECCo Forward Work Plan). The PAB Chair will provide an update on the project and the extent to which the legislation will underpin it.	Jon Dixon, RECCo	27 May 2025, deferred to 25 November 2025, subsequently deferred to TBC	The privacy statement on the website is being rewritten to address complaints transparency, with the intention to keep the action open until the new statement is live and a link can be provided, ensuring formal closure of the action.
RECPAB_25_1028_06	The PAB Chair to review the principles and processes around approving Sandbox applications and provide an update at the November PAB.	Jon Dixon, RECCo	25 November 2025; deferred to TBC	The PAB Chair noted Ofgem's review of current Sandbox procedures, confirming that the existing PAB role in Sandbox procedures will remain but will be updated as part of the strategic direction.

ACTION REF	ACTION	OWNER(S)	TARGET DATE	STATUS
RECPAB_26_0127_03	PAB Members to own oversight of the final recommendations from the deep dive on improving Cross-Code collaboration with a view to hold themselves, RECCo and any future REC Service Providers accountable for delivery.	PAB Chair, on behalf of PAB Members	On-going, with next update from RECCo and the Code Manager in May 2026	The SEC representative highlighted that their legal team has reviewed their Code drafting and is ready to raise a modification to the SEC, but their PAB prefers synchronised action with other Codes. The REC PAB Chair confirmed that a batch of red line text has been submitted to Ofgem, and he will coordinate with the SEC representative after Ofgem's feedback to align the timing of modifications.
RECPAB_26_0224_01	Code Manager to clarify the scope, nature and extent of the assurance required to ensure data is used and passed through the supply chain by Energy Consultants in line with the use case approved by PAB, including how costs are charged and recovered.	Christopher Thompson (Regulatory Senior Consultant)	24 March 2026, deferred to 28 April 2026	A paper is in draft and being updated so that it has the full context of the ongoing Code Reform.
RECPAB_26_0224_02	RECCo and DCC to present an update to PAB on Pot 3 of the CSS/ESS Data Misalignment Issue, highlighting the root cause, impacts and actions required for resolution.	Mollie De Camp, RECCo, and Mark Stannard, DCC	Ongoing, with next update from RECCo in May 2026	The Code Manager provided a verbal update on behalf of RECCo at the May PAB (on 2 June). Most of the original CSS/EES discrepancies have been narrowed down, with a small number of real mismatches remaining (and is now thought to be a reporting issue in CSS aggregate data). DCC is investigating and will report back.

ACTION REF	ACTION	OWNER(S)	TARGET DATE	STATUS
RECPAB_26_0324_04	The Code Manager to engage with the Supplier and UNC Representatives to understand the nature of the issue and collate evidence before engaging with the IGT to progress resolution of address discrepancies. The Code Manager will also advise DCC of the issue.	Daniel Rodgers, Performance Assurance Manager	30 June 2026	The Code Manager and Supplier have been in contact, and are working together to formalise the request to send to the relevant iGT and inform DCC.
RECPAB_26_0428_02	Code Manager to revisit the threshold setting for the two Suppliers being monitored for meter migration.	Andrew Waghorn, Performance Assurance Analytics Lead	30 June 2026	In progress.

ACTION REF	ACTION	OWNER(S)	TARGET DATE	STATUS
RECPAB_26_0428_03	Following the discussion on Data Quality, which highlighted continuing issues with meter data quality, and which does not seem to be resolved with the continuing rollout of Smart and Advanced meters, the Code Manager will raise a REC issue to: • Review and confirm the ongoing requirement for fields to be mandatory in data flows, or if alternate sources of data exist. • Explore if permitted values for certain data items should be restricted for new meter installations whilst recognising the ongoing validity for existing data (e.g. “Unknown” meter location for new installations, default ESME ID). • Ensure that requirements are clear, consistent and well communicated to relevant parties. This will involve targeted industry sessions, similar to those already occurred in the Gas industry. The above exercise to include, at a minimum, meter location, ESME ID, top line data items and the associated flows to update MTDs.	Anton Moden, Performance Assurance Lead	30 June 2026	In progress.

ACTION REF	ACTION	OWNER(S)	TARGET DATE	STATUS
RECPAB_26_0428_04	The Code Manager, supported by other Assurance providers to bring an updated strategy on how to resolve the MTD inconsistencies, considering a bulk upload process versus targeted assurance of accuracy.	Anton Moden, Performance Assurance Lead	30 June 2026	The Code Manager has provided to RECCo details of a problem statement and will be working with them to define the approach.
RECPAB_26_0428_05	Code Manager to provide Annual Rating questions and feedback from the MEMs' soft launch for the Moorhouse handover sessions, to enable a smooth transition.	Anton Moden, Performance Assurance Lead and Aleks Maczka, Party Assurance	25 August 2026	The handover session with Moorhouse is scheduled for 24 June.
RECPAB_26_0602_01	The Code Manager to obtain an update from DEML on the progress and experiences of their Sandbox trial, including any relevant data and learnings to date. This is to be included in the Quarterly Sandbox and Derogation update scheduled for the PAB meeting on 30 June.	Kev Duddy, OAM	30 June 2026	New Action
RECPAB_26_0602_02	The Code Manager to add contextual scene-setting narrative at the front of the annual report to describe prevailing industry conditions and relevant background for the reporting year.	Anton Moden, Performance Assurance Lead	30 June 2026	New Action
