1 CHANGE OVERVIEW

BSC Mod 459 and REC CP R0144 were raised to allow different Meter Operator Agents (MOAs) to be appointed for the import and export MPANs on a shared meter. One of the justifications for this was to stop export suppliers being charged uncompetitive rates. Both changes have been placed on hold due to the MHHS Programme, so this change has been raised to specifically resolve the charging issue.

2 CHANGE PLAN UPDATE

In October 2024, the Code Manager submitted a Change Plan to the Change Panel for R0207, with the definition stage running from 29 August 2024 to 15 November 2024. This was to allow the Code Manager to evaluate whether there was a business case for this Change.

Responses from the Party Impact Assessment indicate this is an issue other Energy Suppliers are experiencing. It also shows that Parties expect to see an increase in frequency of this issue due to the implementation of MHHS and the automatic appointment of the MOA for the Export

Supplier. As such, the Code Manager feels there is a business case for this Change and looks to progress it further.

The proposed extension to plan is below:

Milestone	Activity	From	To
