METER PRODUCT UPDATE

BY APRIL HARBOUR

1 PURPOSE

This paper invites the RECMEP to approve changes to the REC Meter Product Data (MPD).

2 SEPTEMBER 2024 CHANGES

REFERENCE	Description
MPD2024_17	Remove 2 existing converter products

For full details of the change, please see Attachment 1 (MPD2024_17)

The Code Manager has reviewed the submission and confirmed with the proposer that the removal of the Converter products is as a result of invalid formats for the Multiplicator Factor (A0121) field. The Converter product in question is a configurable product with several different versions/ combinations of number of dials and multiplication factors, which remain in MPD, therefore there is no risk to parties who may require this information if the noted two products are removed.

The following table provides an overview of the Meter Product fields validated and the Code Manager's comments.

Field	Code Manager Comments
Model Code	No comments
Manufacturer Code	No comments
Measuring Capacity	No comments
Multiplication Factor	No comments
Number of Dials or Digits	No comments
Pulse Value	No comments
Units of Measure	No comments
Meter Type	No comments
Meter Mechanism	No comments
Payment Method Code	No comments

3 NEXT STEPS

Members are invited to review the MPD submissions and approve the changes to MPD. Subject to RECMEP approval, the changes will be implemented on 18 September 2024.

4 COMMITTEE ACTIONS

Committee Members are invited to take the following actions:

- **NOTE** the contents of this paper; and
- **APPROVE** Meter Product Change MPD2024_017.
