METER PRODUCT UPDATE

BY APRIL HARBOUR

1 PURPOSE

This paper invites the RECMEP to approve changes to the REC Meter Product Data (MPD).

2 SEPTEMBER 2024 CHANGES

REFERENCE	Description
MPD2024_016	Delete 7 Meter Products Add 7 Meter Products

For full details of the change, please see Attachment 1 (MPD2024_16)

The Code Manager has reviewed the submission and confirmed with the proposer that 6 amendments (Add/Delete) relate to an incorrect Meter Type (A0025), these products were classed as Ultrasonic, when they should be Thermal Mass.

One amendment (Add/ Delete) changes the Model Code (A0083) and the Multiplication Factor (A0120). We have confirmed with the proposer that no products under the existing codes are installed, the initial model was added to MPD because of the SGN H100 Fife trial.

The following table provides an overview of the Meter Product fields validated and the Code Manager's comments.

Field	Code Manager Comments
Model Code	Revision to Model code required to meet character validation format.
Manufacturer Code	No comments
Measuring Capacity	No comments
Multiplication Factor	No comments
Number of Dials or Digits	No comments
Pulse Value	No comments
Units of Measure	No comments
Meter Type	No comments

Meter Mechanism	No comments
Payment Method Code	No comments

REFERENCE	Description
MPD2024_018	Add 1 new Meter Products

For full details of the change, please see Attachment 2 (MPD2024_18)

The Code Manager was provided the Change Request submission initially from a REC Party, who had installed a meter product, but during the registration, was informed that the configuration for the metering (with 6 digits – A0121) did not exist.

The Code Manager contacted the meter manufacturer and confirmed that a new item was required in MPD to match the configuration for the meter product.

The Code Manager has not seen any manufacturer details regarding this change, so have been unable to conduct a thorough validation, but given the urgency of this change, the decision has been taken to bring the change to MEP for further discussion and approval, to allow for the registration of assets, which are currently installed, to be completed.

3 NEXT STEPS

Members are invited to review the MPD submissions and approve the changes to MPD. Subject to RECMEP approval, the changes will be implemented on 16 October 2024.

4 COMMITTEE ACTIONS

Committee Members are invited to take the following actions:

- **NOTE** the contents of this paper; and
- **APPROVE** Meter Product Change MPD2024_016 and MPD2024_018.
