MHHS CODE DRAFTING UPDATE

REC CHANGE PANEL – 3 SEPTEMBER 2024

MARKET-WIDE HALF HOURLY SETTLEMENT CODE DRAFTING UPDATE

- **MHHS Code Artefacts (M6) Code Baselined at MHHS Cross Code Advisory Group, 21 August 2024**
- Included MHHS Code Drafting for
  - Retail Energy Code
  - the Balancing and Settlement Code
  - Distribution Connection and Use of System Agreement
- Amendments to over 60 BSC artefacts (creating 16 new BSCPs), **20 REC documents, Data Specification updates** and creating new DCUSA text.

REC IMPACTS

- REC impacts have been derived from either the MHHS Design or REC Consequential Change.
- Standalone REC Change Proposals are also reflected in the drafting.
- Joint BSC and REC traceability exercise completed to ensure all elements of MHHS Design covered in enduring code.

MHHS Design

REC changes identified within the MHHS Design focused on delivery of the MHHS TOM, including new business processes impacting MOAs and Suppliers.

Based on the design baselined in October 2022 (subject to MHHS change requests and agreed design updates).

Consequential Change

Consequential impacts to the REC which were not captured within baselined MHHS design artefacts have been agreed as 'REC Consequential Change'.

REC Consequential Change agreed by the REC MHHS Stakeholder Advisory Group and captured in MHHS drafting.

Consequential Change, agreed via the REC MHHS Stakeholder Advisory Group (MSAG), have been built into the wider MHHS drafting being progressed under the REC and will not be separately identifiable from MHHS go live.

MHHS CODE DRAFTING PROCESS

Developed and consulted on as part of the MHHS Programme.

- Code Drafting progressed as Workstream under MHHS Programme, through Code Development Working Group (CDWG) reporting to Cross-Code Advisory Group (CCAG)
- RECCo worked closely with the REC Code Manager, Elexon, the programme and other Code Bodies
- Translated the agreed MHHS Programme Design Artefacts into Code requirements
- Included drafting to reflect REC Consequential Change solutions for impacts not specified in the MHHS Design
- Code drafting was developed in thematic tranches early 2023 to early 2024. Each tranche published for consultation, then updated and reviewed by CDWG, and approved by CCAG
    - Metering Services
    - Migration
    - Registration
    - Interface Drafting
    - Qualification and Governance
    - Transition
- A ‘Mop Up’ tranche to review and update the code drafting, approved by CCAG in May 2024
- All proposed changes were issued for an industry consistency consultation in June 2024 and then updated for finalisation. This included review by CDWG and approval and baselining by CCAG in August 2024
- All proposed MHHS changes reviewed against approved REC CPs and updated to retains intent of legal text
