R0182 - LEVELISATION RECONCILIATION ELECTRICITY SINGLE-RATE/MULTI-REGISTER SPLIT

BY BRADLEY MERCER

1 PURPOSE

This paper provides the REC Change Panel with an overview of the documents provided to it with respect to R0182 - *Levelisation Reconciliation Electricity Single-Rate/Multi-Register Split.* It clarifies the determinations required to be made during the meeting by the REC Change Panel Members.

2 BACKGROUND

This Change Proposal seeks to introduce the necessary governance and charging amendments to existing Payment Method Levelisation (PML) Reconciliation arrangements (introduced in R0147) to allow for multi-register reconciliation. The amendments will allow for an ongoing reconciliation that accounts for split in both single-rate and multi-register Metering Assets.

Additionally, it will also allow for a one-off retrospective recalculation for the period dating from the proposed effective implementation date of 01 January 2025 back to the implementation of the original reconciliation mechanism on 01 April 2024.

The following documents have been provided to the REC Change Panel for its consideration at the meeting scheduled for 16 July 2024:

- Change Proposal Plan v1.0;
- Initial Assessment Report v1.0

The Change Proposal Plan proposes the timetable for the Change Proposal, and further details with respect to the plan for assessment and consultation.

The Initial Assessment Report sets out the detail of the proposed changes, including identified impacts, prioritisation status and responsible committee.

The REC Change Panel is asked to consider the content of the documents provided. Members are asked to determine that the proposals set out within them are based on complete assumptions which are properly aligned with the REC Change Process.

3 COMMITTEE ACTIONS

Committee Members are invited to take the following actions:

- **REVIEW** the Change Proposal Plan and Initial Assessment Report for R0182; and
- **APPROVE** the Change Proposal Plan proposed by the Code Manager.
