The Code Manager considers that there is a positive case for change to implement this Change Proposal, on the basis that:

- The proposed solution is fully formed and appropriately resolves the problem statement.
- The impact of not implementing this solution would cause detriment to Market Participants, as the REC would not reflect the current market arrangements and could result in new Market Participants interpreting processes differently to existing Market Participants.

8 CODE MANAGER'S RECOMMENDATION

The Code Manager considers that a positive case can be made for implementing this solution and recommends that the Change Panel:

- **APPROVE** the proposed change solution;
