1 CHANGE OVERVIEW

This change aims to remove unnecessary blocks to Consumer Switching, where a Domestic Consumer is registered as elective Half Hourly (HH) with the Losing Supplier, but the Gaining Supplier does not offer this.

2 CHANGE PLAN UPDATE

The previous plan presented to Change Panel did not extend beyond solution analysis and development as a full understanding of the solution was required prior to the planning of impact assessment activity and subsequent change process actions.

Solution development has been completed, and the Code Manager has opened Party impact assessment earlier than initially planned.

Below sets out the rest of the Proposal Plan for this change.

Milestone	Activity	From	To
