OVERVIEW

This is a housekeeping Change Proposal subject to the Housekeeping Change Proposal Process, rather than the Standard Change Process. The nature of the change is that it makes non-material changes to the REC Products to correct typographical, grammatical or consistency errors, and provides an opportunity to introduce necessary clarifications.

CODE MANAGER RECOMMENDATION

The Code Manager recommends Change Proposal R0279 is **APPROVED** for implementation on **07 November 2025**.

RETAIL ENERGY CODE

BACKGROUND

1 SUMMARY

The Code Manager has identified several typographical and formatting errors, as well as opportunities to provide clarity, improve consistency and accuracy across the REC Services and products. These changes have been assessed as meeting the criteria to be progressed via a Housekeeping Change Proposal.

2 PROBLEM STATEMENT

This Housekeeping Change Proposal seeks to make typographical and formatting corrections that have been identified and improve consistency across the REC.

CHANGE PROPOSAL

3 PROPOSED SOLUTION

Here is a high-level overview of the REC Products impacted by this Change Proposal, including the type of change and number of amendments to be made.

REC PRODUCT	CHANGE TYPE	NUMBER OF AMENDMENTS
Schedule 1 – Interpretations and Definitions	• Addition of missing acronyms; • Addition of definitions agreed under previous changes that were missing from the current version of the Schedule; • Correction of typographical errors; • Correction of defined terms (including some missing capitalisations); • Correction of paragraph references; and • Addition of BSC CoP11.	55
Schedule 7 – Energy Theft Reduction	• Omission from R0212 approved legal text.	1
Schedule 14 – Metering Operations	• Correction of typographical errors; • Correction of paragraph references; • Correction of defined terms (including some missing capitalisations);	92

	• Correction of MEM to MOA or MAM (where it is a single fuel); and • The additional of missing Party types from interface tables.	
Schedule 18 – Green Deal Arrangements	• Correction of typographical errors; • Correction of paragraph references; and • Removal of footnotes.	14
Schedule 23 – Registration Services	• Correction of typographical errors; • Correction of defined terms (including some missing capitalisations); • Correction of paragraph references; and • Removal of footnotes.	4
Schedule 24 – Switching Data Management	• Correction of typographical errors; • Correction of paragraph references; and • Removal of footnotes.	5
Schedule 27 – RMP Lifecycle	• Correction of typographical errors; • Correction of defined terms (including some missing capitalisations); • Correction of paragraph references; and • Removal of footnotes.	10
Schedule 30 – Resolution of Consumer Facing Switching and Billing Issues	• Correction of typographical errors; • Correction of defined terms (including some missing capitalisations); • Correction of paragraph references; and • Removal of footnotes.	14
Consolidated Metering Code of Practice (CoMCoP)	• Correction of typographical errors identified within approved legal text of R0152; and • Update of legislation name to most up to date version.	16
Data Specification	• Correction of typographical error in name of a Market Message.	1

REC Baseline Statement	• Correction of names of documents within the Baseline Statement to ensure alignment between REC Baseline Statement and true document name.	7
EES API Interface Specification	• Correction of typographical errors; • Formatting errors; and • Corrections required to ensure all information within the document is factually accurate.	17

A more detailed summary is available on the REC Portal here.

4 DRAFT LEGAL TEXT

The legal text changes to deliver the proposed solution to R0279 can be found here.

5 CASE FOR CHANGE

The Code Manager considers that there is a positive case for change to implement this Change Proposal, on the basis that:

- The proposed solution is fully formed and appropriately resolves the problem statement; and
- The impact of not implementing this solution would cause detriment to Market Participants, as the REC would not reflect the current market arrangements and could result in new Market Participants interpreting processes differently to existing Market Participants.
