OVERVIEW

This is a Housekeeping Change Proposal subject to the Housekeeping Change Proposal Process, rather than the Standard Change Process. The nature of the change is that it makes non-material changes to the REC Products to correct typographical, grammatical or consistency errors, and provides an opportunity to introduce necessary clarifications.

CODE MANAGER RECOMMENDATION

The Code Manager recommends Change Proposal R0293 is **APPROVED** for implementation on 27 February 2026.

RETAIL ENERGY CODE

BACKGROUND

1 SUMMARY

The Code Manager has identified several typographical and formatting errors, as well as opportunities to provide clarity, improve consistency and accuracy across the REC Services and products. These changes have been assessed as meeting the criteria to be progressed via a Housekeeping Change Proposal.

2 PROBLEM STATEMENT

This Housekeeping Change Proposal seeks to make typographical and formatting corrections that have been identified and improve consistency across the REC.

CHANGE PROPOSAL

3 PROPOSED SOLUTION

Here is a high-level overview of the REC Products impacted by this Change Proposal, including the type of change and number of amendments to be made.

REC PRODUCT	CHANGE TYPE	NUMBER OF AMENDMENTS
Data Specification	• Corrections to the descriptions of DI50039 Time Pattern Regime and DI50037 Standard Settlement Configuration ID, to match the updates definitions within Schedule 1 Interpretations and Definitions.	2
Electricity Enquiry Services (EES) Service Definition	• Update the Full Data Extract report to be open to other REC Service Users as agreed by the Performance Assurance Board; • Correction of typographical and grammatical errors; and • Correction of clause numbers.	5
REC Change Panel Terms of Reference	• Correction of typographical and grammatical errors; and • Correction of defined terms.	9
Schedule 14 – Metering Operations	• Correction of a Party type from Shipper to Supplier.	1
Schedule 28 – Related	• Correction of typographical and grammatical errors; and	4

Metering Points	• Correction of defined terms.	
Schedule 29 – Address Management	• Correction of an interface name within the tables.	1
Schedule 34 – MHHS Migration	• Correction of typographical and grammatical errors; • Correction of defined terms (including correction of capitalisation); • Correction of IF references; and • Correction of clause numbers.	11
Schedule 8 – Unbilled Energy Code of Practice	• Addition of clarity to clauses; • Correction of typographical and grammatical errors; and • Correction of defined terms (including correction of capitalisation).	14
Schedule 9 – Qualification and Maintenance	• Removal of footnotes; and • Correction of defined terms (including correction of capitalisation).	12
Schedule 1 – Interpretations and Definitions	• Correction of one definition to the correct Annex within a REC Schedule.	1
EES API Technical Specification	• Removal of URL references that no longer exist; • Correction to Data Item names; • Introduction of a new Data Item which was missing; and • Correction of what a Data Item returns under Legacy Arrangements.	4

A more detailed summary is available on the REC portal here.

4 DRAFT LEGAL TEXT

The legal text changes to deliver the proposed solution to R0293 can be found here.

5 RISKS, ASSUMPTIONS, ISSUES AND DEPENDENCIES

NO.	RISK	NOTES	MITIGATION
R1	There is a risk that there are other omissions from the REC that haven't been identified by the Code Manager.	There may be other omissions or inaccuracies in the REC that have not been identified by the Code Manager in this Change Proposal.	If other issues are identified during the course of progressing this Change Proposal, a decision will be made to include them in a future Change Proposal.

No assumptions, issues or dependencies have been identified with this Change Proposal.

6 CASE FOR CHANGE

The Code Manager considers that there is a positive case for change to implement this Change Proposal, on the basis that:

- The proposed solution is fully formed and appropriately resolves the problem statement.; and
- The impact of not implementing this solution would cause detriment to Market Participants, as the REC would not reflect the current market arrangements and could result in new Market Participants interpreting processes differently to existing Market Participants.
