REC METERING EXPERT PANEL 23_0412 HEADLINE REPORT

Date: 12 April 2023
Via Teams

This Headline Report provides a record of the decisions made by the REC Metering Expert Panel (RECMEP) at its meeting on 12 April 2023.

1 APPROVAL OF PREVIOUS MINUTES

The RECMEP Members unanimously approved the Draft Minutes from the RECMEP meeting on 08 March 2023.

2 METER PRODUCT UPDATE

RECMEP Members were provided with an overview of a request to add a manufacturer and five converter products to the Meter Product Data. The Code Manager had validated all the data provided. RECMEP Members requested that all submission information was provided or shown as redacted, if necessary in future.

RECMEP Members noted the request and:

- **AGREED** unanimously to approve the Meter Product update.

3 R0017 – INVALID REQUESTS FOR SITE TECHNICAL DETAILS (PCR)

RECMEP Members were provided with an overview of the Preliminary Change Report. The Code Manager advised that R0017 had an equivalent change under the Balancing and Settlement Code. The Code Manager informed Members that the Consultation would be published on the REC Portal on 14 April 2023 and would close on 08 May 2023.

RECMEP Members noted the contents of the PCR and:

- **AGREED** unanimously that the PCR contained sufficient detail to progress to Consultation.

4 CATEGORY 3 DOCUMENT: CROSSED POLARITY REPORTING TO THIRD PARTIES GUIDANCE

RECMEP Members were provided with an overview of the changes made to the Crossed Polarity Reporting to Third Parties Guidance following the Consultation period. The Code Manager advised that following discussions with Distribution Network Operators, a section had been added covering the process for Distribution Network Operators to report Crossed Polarities.

RECMEP Members noted the contents of the guidance and:

- **AGREED** unanimously the publication of the Crossed Polarity Reporting to Third Parties Guidance as a Category 3 document.

5 CHANGE PROPOSAL TRACKER

RECMEP Members were provided with an overview of the Change Proposal Tracker, which included the timeframe for CP R0101, which seeks to revise the implementation date and solution for R0021. The Code Manager advised that the new IAR and CPP to defer the implementation of R0021 was approved by the Change Panel ex committee on 06 April 2023. RECMEP members noted that the PCR will be shared with them for approval on the collaboration space on 14 April 2023, and have until the 19 April 2023 to respond.

The Change Proposal Tracker also included CP R0053. RECMEP members noted that the ask of attendees was for data and additional information on emergency metering provisions. RECMEP members noted that notice will be sent out in the weekly bulletin asking for feedback from parties, not just the members who attended the workshop on 11 April 2023. RECMEP members noted that the responsible committee for R0053 is the Change Panel, but updates will be provided to MEP accordingly.
