STATUS	FOR DECISION

METER PRODUCT UPDATE

BY ROSALIND TIMPERLEY

1 PURPOSE

This paper invites the RECMEP to approve changes to the REC Meter Product Data (MPD).

2 AUGUST 2024 CHANGES

The Code Manager has received one proposed change to the MPD, as follows:

Reference	Description
MPD2024_15	Add 20 Meter Products

For full details of the change, please see Attachment 1.

The Code Manager has validated the submission against the respective specification documents. MPD2024_15 has passed validation.

The following table provides an overview of the Meter Product fields validated and the Code Manager's comments.

Field	Code Manager Comments
Model Code	In the initial submission, some model codes exceeded the maximum permitted length of 10. The form was subsequently resubmitted with the length reduced.
Manufacturer Code	No comments
Measuring Capacity	No comments
Multiplication Factor	No comments
Number of Dials or Digits	No comments
Pulse Value	No comments
Units of Measure	No comments
Meter Type	No comments
Meter Mechanism	No comments
Payment Method Code	No comments

The meters are not smart meters and, as such, a corresponding change to the DCC Inventory has not been made.

3 NEXT STEPS

The MEP is invited to review the MPD submission and approve the addition of this change to MPD. Subject to the MEP's approval, the changes will be implemented on 21 August 2024.

4 COMMITTEE ACTIONS

Committee Members are invited to take the following actions:

- **NOTE** the contents of this paper; and
- **APPROVE** Meter Product Change MPD2024_014.
