CONSOLIDATED CONSULTATION RESPONSES

ELECTRICITY ENQUIRY SERVICE DATA ACCESS FOR MARKET-WIDE HALF HOURLY SETTLEMENT

On 18 December 2024 the Code Manager issued a consultation to industry to seek feedback on the proposed EES Data Access for MHHS following presentation at the REC Performance Assurance Board on 17 December 2024.

The purpose of this document is to consolidate the responses and for the Code Manager to answer any questions raised within those responses.

DOCUMENT VERSION	1.0
RESPONSE TYPE	NON-CONFIDENTIAL
DATE ISSUED	12/02/2025
RESPONSIBLE COMMITTEE	REC Performance Assurance Board
LEAD ANALYST	HARRIET TRUSS

DATE CONSULTATION ISSUED	18/12/2024
RESPONSE DEADLINE	15/01/2025

Question 1:	Do you agree with the proposed access to the new MHHS data items, as set out in the attached electricity Data Access Matrix (v4.1 MHHS Updates)? If not, please provide your rationale.	
RESPONDENT DETAILS	**RESPONSE**	**CODE MANAGER COMMENTS**
SSE Energy Supply Ltd Energy Supplier	Yes. Although we note that the Definitions tab of the Data Access Matrix contains definitions for DC and Meter Administrator, following MHHS these will be replaced by Data Service and Unmetered Supply Data Service, for which there are no definitions.	Thank you for the response. The Data Service definition has been added to the Data Access Matrix for MHHS (now v4.2) as follows: "The service Appointed by a Supplier to retrieve, validate and process metering data in relation a particular Advanced, Smart or Unmetered Supplies Metering Point."
IMServ Europe Ltd (Metering Equipment Manager (MEM))	We agree with all other than the following: The "direct contract" DIP info should be visible where the enquirer is the currently held DS/MS/MEM in order that they can review, and if necessary arrange correction, of the information.	Thank you for the response. The direct contract visibility was decided through the MHHS design working groups and to amend this access would require an MHHS design change. It is therefore out of scope of these updates.
E.ON UK Energy Supplier	We are also a MAP and currently, MAPs do get visibility of which MEM is appointed but not whether or not it is a customer appointed MEM and this would be useful.	Thank you for the response. Please see the Code Manager response above.

Question 2:	Do you agree with the proposed restriction of access for Annual Consumption to only those with requirements for Switching, Theft or Settlement purposes.	
RESPONDENT DETAILS	**RESPONSE**	**CODE MANAGER COMMENTS**
SSE Energy Supply Ltd Energy Supplier	Yes.	Thank you for the response.
IMServ Europe Ltd (MEM)	No response provided	n/a
E.ON UK Energy Supplier	Yes we agree with the proposal	Thank you for the response.

Question 3:	Do you have any further comments in relation to the MHHS impacts to the electricity Data Access Matrix?	
RESPONDENT DETAILS	**RESPONSE**	**CODE MANAGER COMMENTS**
SSE Energy Supply Ltd Energy Supplier	Not at this time.	Thank you for the response.

IMServ Europe Ltd (MEM)	No response provided	n/a
E.ON UK Energy Supplier	Changes would be required by C&C group to the Excel add-in that utilises EES data via an API.	Thank you for the response. Any reporting arranged on a commercial basis, such as this, will be based on the new access rights and the Code Manager expects that the EES Provider work with individual organisations on those updates.

Question 4:	Do you agree with the proposed implementation on the date which will be determined by the Authority in line with MHHS Programme milestone, M8 'Code changes delivered'? If not, please provide rationale.	
RESPONDENT DETAILS	**RESPONSE**	**CODE MANAGER COMMENTS**
SSE Energy Supply Ltd Energy Supplier	Yes.	Thank you for the response.
IMServ Europe Ltd (MEM)	No response provided	n/a
E.ON UK Energy Supplier	Yes we agree with the proposal	Thank you for the response.
