DATA ACCESS REQUESTS

GAS DATA ACCESS MATRIX (DAM) HOUSEKEEPING CHANGES

ELECTRICITY DATA ACCESS MATRIX (DAM) HOUSEKEEPING CHANGES

AUTHORED BY ELISE HANDY – OPERATIONAL ACCOUNT MANAGER, REC CODE MANAGER

REVIEWED BY GLENN SHEERN – HEAD OF REGULATORY SPECIALISTS, REC CODE MANAGER

INFORMATION	PAB Members are invited to note the following: • The Code Manager's proposed alterations to the Electricity Data Access Matrix; • The Code Manager's proposed alterations to the Gas Data Access Matrix; • The Code Manager's proposed alterations to Appendix 1; • The Code Manager's proposed alterations to the Service User Categorisation and Assessment Document; and • The Code Manager's implementation date of these changes for **12 December 2025**.
APPENDICES	**RECPAB_25_1125_FORINFO_02A - Electricity Data Access Matrix v5.3_Draft** **RECPAB_25_1125_FORINFO_02B - Gas Data Access Matrix v4.6_Draft** **RECPAB_25_1125_FORINFO_02C - Data Access Matrix Appendix 1 v2.1_Draft** **RECPAB_25_1125_FORINFO_02D - Service User Categorisation and Assessment Document 6.1_DRAFT**

1 THE ROLE OF THE REC PAB

The REC PAB agree access requests in accordance with the Code Manager's recommendation because the PAB are responsible for specifying REC Party, Non-Party REC Service User and REC Service Provider security and data protection requirements under the REC.

One key area for consideration is whether the appropriate process has been followed, for example some changes require additional information security analysis, whereas others might require consultation with industry participants.

GAS DATA ACCESS MATRIX (DAM) HOUSEKEEPING CHANGES

1 ADDITION OF CITIZENS ADVICE AND ENERGY OMBUDSMAN CATEGORY

There is a Gas Enquiry Service (GES) online portal profile available to Citizens Advice, Citizens Advice Scotland and the Energy Ombudsman or similar agencies as detailed in the GES Online Portal User Guide. However, these user types are not listed within the Gas Data Access Matrix (DAM) alongside the data items available within the already developed GES online profile. This housekeeping update will align the DAM with technical solution available, and the current users onboarded to it.

These user types are already listed within Appendix 1, and the Energy Ombudsman has been added to the Citizens Advice entry on the Service User Categorisation and Assessment (SUCAD) document.

GAS DATA ITEMS

The addition covers the following data items from GES:

Data Type	Data Item
Meter Asset Data	Meter Serial Number
Meter Asset Data	Meter Type
Meter Asset Data	Number of Dials
Meter Asset Data	Installing Supplier Short Code (or where displayed as the Name, the Installing Supplier Organisation Name)
Meter Asset Data	First SMETS Installation Date
Meter Asset Data	IHD Install Status
Supply Meter Point Information	Meter Point Reference Number
Supply Meter Point Information	LSP Indicator
Supply Meter Point Information	Address
Supply Meter Point Information	Postcode

Supply Meter Point Information	UPRN
Supply Meter Point Information	RMP Status
Supply Meter Point Information	Network Short Code (or where displayed as the Name, the Network Organisation Name)
Supply Meter Point Information	LDZ ID
Supply Meter Point Information	SMP Status
Supply Meter Point Information	Current Shipper Short Code (or where displayed as the Name, the Current Shipper Organisation Name)
Supply Meter Point Information	Current Shipper Effective Date
Supply Meter Point Information	Current Supplier Short Code (or where displayed as the Name, the Current Supplier Organisation Name)
Supply Meter Point Information	Current Supplier Effective Date
Supply Meter Point Information	Current Supplier Effective To Date
Supply Meter Point Information	Incoming Shipper Short Code (or where displayed as the Name, the Incoming Shipper Organisation Name)
Supply Meter Point Information	Incoming Shipper EFD
Supply Meter Point Information	Incoming Supplier Short Code (or where displayed as the Name, the Incoming Supplier Organisation Name)
Supply Meter Point Information	Incoming Supplier Effective To Date
Supply Meter Point Information	Current Registration CSS Registration ID
Supply Meter Point Information	Current Registration Registration Status
Supply Meter Point Information	Current Registration Registration Status From Date
Supply Meter Point Information	Incoming Registration CSS Registration ID
Supply Meter Point Information	Incoming Registration Registration Status
Supply Meter Point Information	Incoming Registration Registration Status From Date

Supply Meter Point Information	Incoming Registration Domestic Premises Identifier
Supply Meter Point Information	Market Sector Code
Supply Meter Point Information	AMR Service Provider Short Code (or where displayed as Name, the AMR SP Organisation Name)
Supply Meter Point Information	SMSO Short Code (or where displayed as the Name, the SMSO Organisation Name)
Supply Meter Point Information	SMSO EFD
Supply Meter Point Information	DCC Service Flag
Supply Meter Point Information	DCC Service Flag EFD
Supply Meter Point Information	Network Project Name
Supply Meter Point Information	Network Indicator
Supply Meter Point Information	Network Project Start Date
Supply Meter Point Information	Network Project End date

DATA PROTECTION, INFORMATION SECURITY AND ANY SPECIFIC CONSIDERATIONS

This category is already included within the SUCAD and the Code Manager proposes to retain the current assurance approach.

2 REMOVAL OF REDUNDANT CATEGORY

The UK Revenue Protection Association has ceased its energy theft reporting service within Great Britain and no longer has Enquiry Services access to support this. This entry has been removed from the DAM and Appendix 1.

ELECTRICITY DATA ACCESS MATRIX (DAM) HOUSEKEEPING CHANGES

1 ADDITION OF LCT INSTALLATION REGISTRANT CATEGORY

Under Process 4, Low Carbon Technology (LCT) Installation Registrant was created as a category within the Electricity Enquiry Service (EES), however, was not added to the DAM on implementation of R0118 – Review of Schedule 12 and processes to manage access to data. The Electricity Networks Association (ENA) is currently onboarded to this category for its service to digitalise and automate the application process for installers to apply to connect an LCT to a property.

ELECTRICITY DATA ITEMS

The covers the following data items from EES:

Data Item
Address Lines 1 - 9
MPAN Core
MPAN Relationship - Primary EFD (DC03)
MPAN Relationship - Primary ETD (DC03)
MPAN Relationship - Primary MPAN (DC03)
MPAN Relationship - Secondary EFD (DC03)
MPAN Relationship - Secondary ETD (DC03)
MPAN Relationship - Secondary MPAN (DC03)
Postcode (DC03)
Associated Import / Export MSID
Associated Import / Export MSID EFD
Associated Import / Export MSID ETD

DATA PROTECTION, INFORMATION SECURITY AND ANY SPECIFIC CONSIDERATIONS

The LCT Installation Registrant category is currently accessed via the API only however, for this category the Code Manager considers the following assurance approach.

	Method of Access	ISDP Approach	Description
ISDP Level	Bespoke Report	No External Assessment	Basic information only
	GUI	Verification External Assessment	Assessment relevant security information (cyber essentials +)
	API	Standard External Assessment	Assessment of information security risk management in REC relevant area.

2 REMOVAL OF REDUNDANT CATEGORY

The UK Revenue Protection Association has ceased its energy theft reporting service within GB and no longer has Enquiry Services access to support this. This entry has been removed from the DAM and Appendix 1.

3 METERING EQUIPMENT MANAGER (MEM) CATEGORY NAME UPDATE

Safe Isolation Providers (SIPs), Electricity Metering Operatives (EMOs) and Meter Operator Agents (MOAs) are subsets of Metering Equipment Managers (MEMs) and are provided with the same levels of access to EES data. This alteration to the DAM and the SUCAD makes it clear that all role types can access this category.

4 NEXT STEPS

The Code Manager does not consider a consultation is required as these are housekeeping amendments only and do not provide any users with additional data. The Code Manager will implement changes to the REC documentation on **12 December 2025**.

PAB INFORMATION

PAB Members are invited to note the following:

- The Code Manager's proposed alterations to the Electricity Data Access Matrix;
- The Code Manager's proposed alterations to the Gas Data Access Matrix;
- The Code Manager's proposed alterations to Appendix 1;
- The Code Manager's proposed alterations to the Service User Categorisation and Assessment Document; and
- The Code Manager's implementation date of these changes for 12 December 2025.
