1. 1. INTRODUCTIONS

The Chair (CS) welcomed attendees to the meeting of the REC Tariff Interoperability Working Group (RECTIWG). The Chair (CS) introduced Theo Burnard (TB) as the meeting secretariat.

2. GITHUB REPOSITORY OVERVIEW

The Chair (CS) presented an overview of the GitHub repository, noting its function is designed to improve the readability and accessibility of necessary technical information.

The Chair (CS) noted that the GitHub platform was informed by the feedback provided by previous Working Group Member inputs and invited further feedback from the REC Tariff Interoperability Working Group (RECTIWG) Members on the current GitHub usability.

RECTIWG Members noted the update.

3. FEEDBACK ON THE APPLICATION PROGRAMMING INTERFACE (API) SPECIFICATIONS

The Chair (CS) presented an overview of the feedback received on the Application Programming Interface (API) specifications, highlighting reoccurring themes such as the definition clarifications of certain objects, additional search terms, and concerns about payload sizes.

The Chair (CS) noted that feedback is welcome and will be reviewed and responded to by the technical team.

RECTIWG Members noted the overview and update.

4. TARIFF INTEROPERABILITY SOLUTION WORKING GROUP (TISWG) ESTABLISHMENT

RECTIWG Members were presented an overview of the REC Tariff Interoperability Solution Working Group (RECTISWG), explaining that RECTISWG will focus on developing the tariff data specification, including API specifications and API governance. TISWG will meet monthly with specific individuals who have the required skills and capabilities.

KR highlighted that RECTISWG will differ from RECTIWG by being a forum for detailed technical discussions and decision-making, whereas RECTIWG will continue to meet monthly as a wider stakeholder group for disseminating key information and updates on the emerging solution.

KR informed RECTIWG Members that RECTISWG will meet for the first time in the week of 12 May, and the agenda will include reviewing and adopting the TISWG terms of reference, workshop timeline, deliverables, and milestones plan.

KR agreed to prepare high-level introductory materials and training sessions to bring technical experts up to speed on tariff interoperability.

A RECTIWG Member (CC) presented an update on Consumer Consent and noted the close working relationship with SECCo colleagues on this issue.

RECTIWG Members noted the update.

5. AOB

RECTIWG members were requested to contact the Meeting Secretariat (TB) if they had any concerns about receiving current or future communications.

Next meeting date: 27 May 2025
